PStA Sheet 02 – The Golden Bucket 2

Please see the code provided for your next assignment, "TheGoldenBucket2".

In this two-week exercise, we will look at the adapted and expanded Golden Bucket restaurant from PstA Sheet 1. Maxwell Powers visits the Golden Bucket again. But this time, Maxwell receives more information about his stay. He sees each order and the total on his bill before he leaves the restaurant.

Analyze the given code for problems that can be solved using generics and/or iterators and discuss solutions with your group members. Distribute tasks to group members. Help each other or collaborate when needed and remember that each group member should provide commits regularly.

This task should be completed by May 9.
